

Your Rulers & Templates from Slipping **Guaranteed!**

- Six 12" Practically Invisible Strips. Peel off of the backing paper and attach along the edges of your ruler.
- Repositionable Leaves no sticky residue.
- Slides easily over your fabric but just a little pressure locks your ruler in place.
- Cut to Any Size for specialty rulers and templates.

Jane Carhart / Morris, IL
Your Grip Strips are amazing. ...I worked in a fabric store and have tried every product I could find to keep my rulers from slipping.

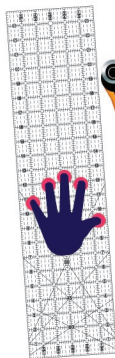

Nothing worked until I found Grip Strips! ...These truly are the best thing that has happened to the quilting world in years.

Sheila Kester / Clearwater, KS
I am about to bust with joy at the new item I found! ... I can't believe how good it works. Even on my 6 x 24 ruler...they are clear so they don't hinder your reading of the ruler and they peel right off if you need to move them.

Without Grip Strips:

Even with a vinyl sheet underneath, when you press down on the ruler, all the **pressure** goes only under your fingers.

But when you are cutting up here, the ruler slips.

No More Finger Walking Down the Ruler As You Cut

With Grip Strips:

All the **pressure** gets concentrated along the edges of the ruler.
